MEMORANDUM FOR United States Army Sergeants Major Nonresident Course, June 2003
Resident Course Attendees

SUBJECT: Correspondence Studies Phase Completion

1. On behalf of the United States Army Sergeants Major Academy Commandant, COL Enneking, the Academy Command Sergeant Major, CSM West and myself, congratulations on your successful completion of the Correspondence Studies Phase of the United States Army Sergeants Major Nonresident Course.
2. You have engaged in a very challenging course that required many hours of independent study, research, presentations and the successful completion of the end of phase (module) exercises and examinations.
3. You now meet the academic prerequisite to attend the Resident Phase that begins on 07 Jun 03 and culminates with your class graduation on 20 Jun 03 (Classes 27 & 28, please refer to the academic progress attachment). Now you must meet the following administrative requirements prior to your arrival:

- a. Ensure that you complete the biographical data sheet (encl. 1) and return it to us via email, mail or fax not later than 01 May 03.

Note: Class 28 and 29 students who are on the new automated program need only to update or verify their bio information through their student portals and contact their CFs when they have verified the information as accurate or require changes they cannot do.

- b. You must also meet specific medical requirements prior to attending the resident phase (see encl. 2).

Note: Failure to meet the medical requirements prior to arrival will result in your denial of enrollment into the Resident Phase so I strongly encourage you to complete and send in the requirements contained in enclosure 2 as soon as possible.

4. As part of inprocessing into the Resident Phase, your height, weight, and if necessary, bodyfat will be verified IAW AR 600-9 (Army Weight Control program). Additionally, all students will take the APFT (Army Physical Fitness Test) between 9-11 Jun 03. Successful completion of the APFT is a graduation requirement (AR 351-1, par 1-13c).

ATSS-BAC

SUBJECT: Correspondence Studies Phase Completion Notice

5. I caution everyone that the few academic requirements left (Army Writing Style, NSA, ect.) have never caused a student to fail the Resident Phase. However, disciplinary actions, failure to meet the standards of AR 600-9 and failing the APFT have resulted in dismissals from the course. **The message I want to convey is if students are close to minimum fitness standards, the travel, stress, elevation, temperature, possible wind and the dry heat of June at this desert post, may affect their level of fitness and performance. I suggest that you consider these factors as you prepare for your trip to El Paso, TX.**

6. There are still some academic requirements you must complete and bring with you to the Resident Phase (PE-18, NSA briefing, etc.). More specific guidance can be found in the June 03 Resident Phase Pamphlet which will be accessible through the 2003 Resident link on the NRC's web page (see item 7 below) starting the first week of February 2003.

7. Please do not hesitate to call your Course Facilitator, the Health Promotion Office (regarding medical questions and/or information) or myself if you have any questions regarding the Resident Phase. You can also reach us by going to the NRC website (<http://usasma.bliss.army.mil/NRC/>) and then go to the NRC Contacts Page and the June 2003 Resident Phase links for other numbers, addresses and other Resident Phase information (the June 03 link will be active starting 01 Mar 03).

Note: Classes 28 and 29 students on the new automated program can access the same information through their Student Portals.

8. Again, congratulations on your successful completion of the Correspondence Studies Phase and we look forward to seeing you in Jun 03.

Enclosure #2: Physical Training and Weight Control

1. USASMA is at the forefront in the Army's effort to get into true fighting shape.

a. Upon arrival, height and weight is checked in accordance with AR 600-9 (Army Weight Control Program). **Students who do not meet the weight standards are denied enrollment in the Sergeants Major Nonresident Course (SMNRC).**

b. Successful completion of the Army Physical Fitness Test (APFT) is a graduation requirement.

c. Proof that your periodic physical is current is an NCOES requirement.

(1) The USASMA Health Promotions Office (HPO) and the cardiology service of William Beaumont Army Medical Center (WBAMC) will conduct cardiovascular risk screenings of all SMC students based on their current physical. We require submission of the following items before you arrive. Mail or Fax the following documents to the HPO (see para (3) below), not later than 30 March 2003:

(2) One copy of a **current physical exam, within the last five years** (forms DA 2808 or SF 88 and DA 2807-1 or SF 93). If **over 40** years of age, the periodic physical must include the following:

(a) One copy of a electrocardiogram.

(b) Lab results for the following blood tests: fasting blood glucose and lipid 5 (cholesterol).

(3) If you are diabetic, have a history of heart problems, or other medical conditions, you should alert the HPO to your condition when you mail the above documents.

(4) SGM students can fax the above documents. DSN: 978-8214 or comm: 915-568-8214. We recommend mailing these documents to:

**USASMA-HPO
ATTN: ATSS-CH (MAJ Boutilier)
BLDG 11291, BIGGS FIELD
FT BLISS, TX 79918-8002**

2. Do not hesitate to contact the HPO at DSN 978-8271 or commercial (915) 568-8271 if you have any questions. You can also email HPO at:
